

Draft Model Constitution for a CISV National Association (without legally independent Chapters on a local level)

This document is part of a series of model role profiles intended to assist NAs and Chapters in structuring the work of their Boards and key official positions. In contrast to the Model Role Profiles, each NA/PA intending to host programmes with international participants needs to have adopted a constitution and be legally registered in their country, or have a structure which allows CISV to operate in that country in accordance with its laws. This model constitution needs to be adapted according to legal requirements in your country, but it provides you with a suggestions of certain basic areas that usually need to be covered. It is suggested that a PA sends an English version of the constitution to the Secretary General of CISV International prior to adoption for verification of the affiliation. A copy of the final adopted constitution and its English translation needs to be sent to the Secretary General of CISV International within 30 days.
